

To,
Student Welfare Council
Kathmandu University

Greetings,

My name is Ishar Maharjan and I am an undergraduate computer engineering student in Kathmandu University. I would like to express my interest in the upcoming Fordays Japanese Language Class at Kathmandu University as I have always wanted to learn Japanese language and about its culture.

I developed my interest in the Japanese language during my high school days. I used to watch quite a few Japanese anime series and the culture portrayed really intrigued me. Since then I've tried to learn a few things about Japan, its people and the society. This program seems like a perfect opportunity for me to learn more about the culture. What distinguishes me from my peers is that learning Japanese has always been one of my hobbies. I've talked to a few people from Japan and made friends with them via several online discussion platforms. I would fully engage in the program with utmost interest and curiosity and I'm confident that this program would bring me a step closer in having a good knowledge and understanding about the relation between Nepal and Japan both politically and culturally, and also have some level of connection with the Japanese society.

I believe I'm a good fit for the program because of my inherent interest in Japan and desire to learn more. I hope to get the opportunity to attend the Fordays Japanese Language Class at Kathmandu University. Thank you very much for considering my application.

Yours sincerely,
Ishar Maharjan
